

# Relationship & Results Oriented Healthcare™ Foundations Seminar

*Relationship &  
Results Oriented  
Healthcare™*

Oriented Healthcare™ system is an overarching philosophy & method of delivering care that combines patient & family-centered communication with high impact team practices to create positive health outcomes. The three level certification process prepares key individuals in healthcare organizations to fully implement the RROHC™ System.

*Healing Healthcare: One Person, One Organization at a Time*

"This continuing nursing education activity (CEARP 8934, expiration date October 31, 2009) was approved by the Washington State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation."

# RROHC™ Foundations Seminar

October 16, 2007

RROHC Foundations workshop may be attended as a one day seminar, or as a complement to the 16-week, instructor-guided/self-study introductory program that grounds participants in the RROHC system philosophy and set of practices. Enrollment in this program can be concurrent to enrollment in the RROHC Level 2 Facilitator program.

The Specialist is prepared to function as an expert team leader, charge nurse, clinical leader, or allied healthcare leader who expertly demonstrates and role models the RROHC™ System.

Following completion of the 16-week program and this Seminar, participants will be able to:

- Effectively assign, delegate, supervise, and establish team leadership.
- Communicate professionally as a leader and interdisciplinary team member.
- Skillfully deliver essential reports and feedback.
- Solve problems through primary critical thinking skills.
- Successfully apply 4 P's (Purpose, Picture, Plan, Part) with patients, patients' families, teams, and organization.

## About the Seminar Leaders

**Ruth I. Hansten RN MBA PhD FACHE** is the author of five books and numerous articles. Her mission is to promote healing and wholeness, transforming organizations through relationship enhancement and skills development. With over 33 years of experience in nursing, she brings both a practical and humorous approach to the essential work that nurses do. For the past 20 years her national consulting practice has worked with nursing care delivery models, critical thinking, delegation and leadership skills, and interdisciplinary team development. Her doctoral research focused on critical thinking and clinical judgment. Visit her website [www.Hansten.com](http://www.Hansten.com) for a list of her books and articles. She welcomes Kimberly McNally as her colleague in coaching organizations and individuals toward excellence in patient care.

**Kimberly McNally RN MN** is an executive coach and consultant who understands the rewards and challenges of working in the healthcare industry. Her mission is to improve healthcare one conversation at a time. For the past nine years, her company has provided coaching, leadership development and retreat facilitation to healthcare organizations across the country. She draws on over 28 years of healthcare management experience. In addition, she brings experience leading professional associations (including Health Care Education Association) and community boards to her work and is presently a board president of an academic medical center and Chair, Governing Boards Committee of the Washington State Hospital Association. She has written several articles on organizational coaching. Visit [www.mcnally-assoc.com](http://www.mcnally-assoc.com) for more information.
